

MASRI RG 68, 100, 150, 220, 320, 460, 680, 1000

MASRI RG Series are high quality lead free extreme pressure gear oil blended from high viscosity index base oil and sulphur phosphorus extreme pressure additives.

MASRI RG Series are recommended for all types of industrial enclosed steel gear drives representing load and speed conditions of extreme severity. Although designed primarily for the lubrication of gears, their high overall performance makes it possible to extend their use to system involving gears, plain bearings, rolling bearings and sliding surfaces.

MASRI RG Series merupakan pelumas roda gigi extreme presure bebas timbal berkualitas tinggi yang diolah dari base oil dengan viskositas indeks yang tinggi dan aditif extreme pressure tipe sulphur phosphorus.

MASRI RG Series direkomendasikan untuk pelumasan semua jenis industrial enclosed steel gear drives pada berbagai kondisi kecepatan dan beban ekstrim. Selain dirancang untuk melumasi roda gigi, unjuk kerja yang tinggi memungkinkan pelumas ini untuk digunakan dalam sistem yang melibatkan gears, plain gears, rolling bearings, dan sliding surfaces.
